

# **RENEWABLES WORKING GROUP REPORT**

## **Draft II, 7/9/96**

### **TABLE OF CONTENTS (w/o page numbers for now)**

#### **Section I: INTRODUCTION**

- A. Existing Law and Regulations
- B. Background on the California Renewable Energy Industries
  - 1. *Growth of Renewables in California During the 1980s*
  - 2. *Renewable Energy Production in California During the 1990s*

#### **Section II: PURPOSE OF THE REPORT IN THE CONTEXT OF RESTRUCTURING**

- A. Commission Goals for Renewables in Restructuring
- B. Implementation Questions
  - a. What is the Obligation?
  - b. Where is the Obligation to Comply?
  - c. How are Renewable Energy Credits Initially Allocated?
  - d. How is the Program Administered?
  - e. Cost-Related Issues
  - f. How does the Program Fit with Other Aspects of Electric Industry Reform?
  - g. Legislative Requirements

#### **Section III: PROPOSAL ABSTRACTS**

- A. Comprehensive Program Proposals
  - 1. *Proposals with a Minimum Renewables Purchase Requirement*
    - a. AWEA, et al.: Renewables Portfolio Standard
    - b. IEP: Customer Choice Renewable Portfolio Standard
    - c. NCPA: Renewable Capacity Credit Proposal
    - d. SCE/PG&E: Minimum Renewables Purchase Requirement
    - e. SMUD: All Renewables Production Credit Proposal
  - 2. *Surcharge-Funded Production Credit Proposal*
    - a. EDF, et al.: Surcharge Distributed as a Production Credit
- B. Adjunct Proposals
  - a. Biogas Working Group: Climate Active Gas Mitigation Proposal
  - b. CalSEIA, et al.: Emerging Technologies Commercialization Pathway

#### **Section IV: COMMONALITIES AND DIFFERENCES AMONG STRATEGIES**

- A. Renewables Program Implementation Proposals

1. *Comprehensive Program Proposals*
  - a. Proposals With an MRPR Standard
  - b. Surcharge-Funded Production Credit Proposal
2. *Adjunct Proposals*
- B. Positions of the Proposals with Respect to Key Issues
  1. *Program Obligation Issues*
    - a. Basis for the Obligation
    - b. MRPRs and Program Goals
    - c. Generation Technologies Included in the Programs
    - d. Competition and Diversity of Renewable Generating Sources
  2. *Program Eligibility Issues*
    - a. Out-of-State Renewables
    - b. UDC-Owned Renewables
    - c. Existing Renewables
    - d. Renewables Generation for On-Site, Own Use
    - e. Hybrid Generators
  3. *Program Administration Issues*
    - a. Program Administration
    - b. Compliance and Enforcement
    - c. Renewable Credits and Credit Markets
    - d. RECs from Energy Sold Under Existing PPAs
    - e. Competition and Marketing of RECs
- C. Areas of Commonality and Difference Among the Proposals

## **Section V: COMPREHENSIVE PROGRAM PROPOSALS**

### **V.1. Proposals with a Minimum Renewables Purchase Requirement**

- A. AWEA, et al.: Renewables Portfolio Standard
- B. IEP: Customer Choice Renewable Portfolio Standard
- C. NCPA: Renewable Capacity Credit Proposal
- D. SCE/PG&E: Minimum Renewables Purchase Requirement
- E. SMUD: All Renewables Production Credit Proposal

### **V.2. Surcharge-Funded Production Credit Proposal**

- A. EDF, et al.: Surcharge Distributed as a Production Credit

## **Section VI: ADJUNCT PROPOSALS**

- A. Biogas Working Group: Climate Active Gas Mitigation Proposal
- B. CalSEIA, et al.: Emerging Technologies Commercialization Pathway

## **Appendix A: ACRONYMS AND LIST OF PARTICIPATING ORGANIZATIONS**

**Appendix B: IOU-SPECIFIC RENEWABLES DATA**

**Appendix C: ASSESSING THE CONSEQUENCES OF PUBLIC  
POLICIES PROMOTING RENEWABLE  
DEVELOPMENT**

**Appendix D: Acronyms and List of Participating Organizations**
